DATE: December 4, 2002

Recently, a number of duplications in the descriptions for fields contained in the TC1 data dictionary were noted. These duplications have been corrected, resulting in a revision to the report forms and data dictionary. In addition, the field length for CMIR was decreased from 38 to 6 characters. Version 20021108 is available from the TMC Website. These changes are effective January 2, 2003.
