

Test Monitoring Center

6555 Penn Avenue
Pittsburgh, PA 15206-4489
(412) 365-1000

MEMORANDUM: 02-021
DATE: April 16, 2002
TO: Dale Smith, Chairman, L-33 Surveillance Panel
FROM: Donald Lind
SUBJECT: L-33 Reference Test Status from October 1, 2001 through March 31, 2002

The following is a summary of the L-33 reference oil tests that were reported to the Test Monitoring Center during the period October 1, 2001 through March 31, 2002.

There were no calibration tests to report this report period due to industry severity issues. A total of 37 Matrix tests were conducted this report period to evaluate procedural revisions. Additionally there were two non-blind tests conducted to evaluate test severity. Below is a summary of the tests reported to the TMC this report period.

	TMC Validity Codes	No. of Tests
Acceptable Industry Donated Test	AG	33
Invalid Industry Donated Tests	LG	4
Non-blind Reference Oil Tests	NN	2
Total		39
