6555 Penn Avenue  
Pittsburgh, PA 15206-4489  
(412) 365-1000

MEMORANDUM: 05-099  
DATE: December 16, 2005  
TO: L-33-1 Mailing List  
FROM: Donald Lind  
SUBJECT: Differential Case Differences

During the December 16, 2005 L-33-1 Surveillance Panel conference call meeting, the panel discussed differential case hardware differences. During the meeting it was determined that, for the current V01.1 hardware, some of the differential cases were painted and some were not. In order to help determine if this has any impact on severity, labs will be required to document, in the comment section of the test report, if the cases are painted. This shall be reported for all tests started on or after December 19, 2005.
