L-33-1 Information Letter 22-2  
Sequence Number 31  
March 8, 2022

***ASTM consensus has not been obtained on this information letter. An appropriate ASTM ballot will be issued in order to achieve such consensus.***

TO: L-33-1 Surveillance Panel

SUBJECT: Post Test Washing Procedure Revision & Address Updates

On February 9, 2022, the L-33-1 Surveillance Panel voted to change the wording of several sections of the L-33-1 test method. The panel approved the change to update both the address of the Test Monitoring Center in footnote 2, and the AP Services, Inc in footnote 11.

The panel also voted to update the wording in section 11.4.2 of the procedure for post test washing of parts. The main concern for this was specifying a cleaning method that limits the possibility of removing post test rust.

Anthony Lange  
Chairman  
L-33-1 Surveillance Panel

Frank Farber  
Director  
ASTM Test Monitoring Center
