The agenda was reviewed

**2.0 Meeting Notes**

Discussion over lubrited / non-lubrited axles used in alternating for referencing.

R. Warden requested a variance to allow the alternating requirement specified by the LTMS document be suspended due to low inventory of non-lubrited axles.

The group had no major concerns but agreed that this should be approved on a case by case basis.

Motion:

R. Warden 1<sup>st</sup>

J. Chalkley 2<sup>nd</sup>

Allow Southwest Research Institute to run lubrited reference instead of a non-lubrited reference suspending LTMS requirement for the upcoming reference period.

Unanimous Approval

**3.0 Adjournment**

Motion to adjourn.

Respectfully Submitted
