Gropp, Jerry – Lubrizol

Umerley, Matt – Lubrizol

Bubonic, Brad – Lubrizol

Warden, Rebecca – Southwest Research Institute

The meeting was called to order at 15:00 EST.

1.0 Agenda Review

The agenda was reviewed

2.0 Data Discussion

All Lubrited parts are finished production and in route to the labs. A small percentage of the parts have the reddish hue still on them.

Intertek has completed rig modifications, and expects to be running next week.

Parts will be reviewed at the rating workshop at the end of July. Pending the feedback from the raters, the group may need to meet to work up better descriptions/photos of rippling and the potential new distress being seen on some gears.

TMC 117 supplier was asked to review internally what data has and can be shared on prior performance results.

Next meeting in 2 weeks.

3.0 Adjournment

Motion to adjourn.

Respectfully Submitted

Chris Prengaman
