McGlone, Bruce – Meritor

Parke, Scott – ASTM TMC

Smith, Dale – Intertek

1.0 Discussion

Erratic vibration on SwRI's 1st 155-1 run for the first half of the test

Operational data from all other runs looked good

Afton and Intertek agree to complete 1 run on TMC 155-1 and 1 run on TMC 152-2

Intertek expects to run by the end of the week

Afton to report back with potential timing

Data to be reviewed at next teleconference

Look into gear production lots and how they correlate to severity

25-50 gears per "bin"?

2.0 Adjournment

Motion to adjourn.

Respectfully Submitted

Matt Umerley
