M. Portell (Intertek)

A. Zyski (Dana)

A. Comfort (US Army)

M. Sangpeal (Afton/C)

A. Lange (Intertek)

N. Schaup (LZ)

Call to Order

2023 L-42 Hardware Order

Dana completed assembly on the first lot of axles. Each lab who ordered hardware ran at least one Passing Reference Oil and one Discrimination Oil. Lab G adjusted their stand for their tests, while Labs A and D made no adjustments. Labs A and D do not intend to use this new hardware immediately. Results are similar to past batches, and the panel decided to approve the hardware for testing. Detailed results can be found in the attached presentation from TMC.

Motion: The 2023 Hardware Batch (MSPLO/P2AD01) is approved for testing, effective 10/30/2023. Targets from previous batch will be used (Mean = 23, Standard Deviation = 5.49).

1st: M. Sangpeal

2nd: A. Lange

All in favor, no objections, or abstentions.

Adjournment

Meeting adjourned.

Respectfully submitted,

Matt Sangpeal

L-42 Surveillance Panel Chairman
