Review of Meeting Agenda

The meeting agenda is included (see attachment).

Approval of minutes

- February 9, 2011 L-60-1 Surveillance Panel Meeting
- Motion by Mr. Smith/Second Mr. Koehler, minutes approved. Vote 6-0-0.

Meeting Discussion

D893 revisions by Mike Birke discussion:

Mike Birke, from SWRI, discussed proposed changes/ revised wording to the DD893 procedure that he has been working on for review by the Surveillance Panel.

Action Item: Mike Birke will make proposed revisions and wording and will send to Mr. Parke for review. Mike will incorporate the comments from Scott and present these proposed changes at the next ASTM meeting and submit them at the Sub 6 level for balloting.

Discuss Test Gear inventory supply and next industry order:

Chairman Graziano reported that he had contacted the distributor of the last industry order (Ohio Gear and Transmission). The distributor has stated that bar stock of the batch of steel containing the 0.15% and 0.35% lead per the specification for 11L17 steel is available. As per the last industry order we will ask to have the bar stock isolated and analyzed for the specification of the 11L17 steel and also any other special requests from the SP at that time (Sept. 2000). A discussion about possible matrix testing for batch acceptability followed and will be revisited when new gear batch has been received.

Action Item: Chairman Graziano will contact the distributor with '3' different approximate order quotes of 1000, 2000 and 3000 of each gear.

New business

Mr. Parke proposed a change to modify the standard slightly and allow the TMC to go paperless for reference test reports. The new wording eliminates the requirement for the labs to send hard copies of each reference report to the TMC as just the electronic data transfer is needed.

Motion by Mr. Koehler to move that the TMC issue an information letter to modify the L-60-1 standard per Scott Parke's suggested wording so that the labs are no longer required to send a hard copy of the reference reports to the ASTM Test Monitoring Center. This wording change is effective with the date on the information letter. Vote: 6-0-0

Adjournment

Being no further business, the meeting was adjourned.

Respectfully submitted,

Ricki P. Graziano
L-60-1 Surveillance Panel Chairman
