

ASTM L-60-1 (D5704) Teleconference Meeting Minutes

October 15, 2015

Attendees: voting member in **BOLD**

Afton **M. Keisler**
Intertek **A. Trader**
Lubrizol **L. Hamilton (Chairman)**; J. Gropp; M. Umerley, B. Bubonic
Meritor **B. McGlone**
SwRI **R. Warden**
TMC **S. Parke**

9 members in attendance; 6 voting members present

TMC presented

S. Parke (TMC) explained that because of the existing correction factors for Pentane and Viscosity that under certain situations a mathematical problem can occur for these two rated parameters. A simple way to address this is to Transform these two rated parameters and then Un-transform them for the final result.

Motion by R. Warden, Continue to use existing transformed correction factors for VISI and PEN and those parameters will continue to be transformed for the sole purpose of adding correction factors. 2nd by M. Keisler Passed 6-0-0

Motion by R. Warden, S. Parke will add 10 fields to Form 1 to address correction factors. Report Form Revision notice will come from S. Parke. Correction Factors will be addressed in information letter. 2nd by M. Keisler Passed 6-0-0

New Business

There was no New Business.

Adjournment

Motion by M. Keisler to adjourn the meeting, 2nd by R. Warden Passed 6-0-0

Respectfully Submitted;

Larry Hamilton

L-60-1 Surveillance Panel Chairman
