REPORT PACKET REVISION NOTICE: OSCT-20190813

VERSION: 20190813

EFFECTIVE DATE: 20191001

DATE: September 27, 2019

TO: OSCT Surveillance Panel

FROM: Dylan Beck

Version 20170813 of the OSCT Report Packet changes the form to allow averages to be reported to one additional level of precision. The average shore hardness is also changed to be reportable to one decimal point. This version is in effect for all testing beginning October 1 2019. A previous OSCT revision notice was released on 20190829 that incorrectly identified 20190829 as latest version of the OSCT Report Packet. This should be disregarded and 20190813 should be considered the latest version.
