

Oil Seal Compatibility Test (OSCT) Surveillance Panel Meeting Minutes

September 11, 2026

Don Bell

Participants listed on attachment in Appendix.

Action Items:

- D. Bell email FNOK to tell them to proceed with production of FL slabs at Plymouth, MI facility and to provide a quote to TEI (complete)

An OSCT Surveillance Panel Teams meeting was called to order by D. Bell at 10:02 am on 9/11/2026.

Since FNOK ceased production of FL slabs at their Georgia facility last month, we have almost depleted FL inventory and thus will soon create issues with completing J2360 programs.

The Panel discussed two options for FL:

Option 1:

FNOK recently agreed to continue production of FL at their Plymouth, MI facility, but price will increase ~78% from \$4510 to \$8000 for the typical 200 slabs/batch with a typical 6 week lead time.

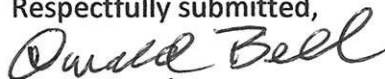

Options 2:

OH Technologies (Mentor, OH) supplies FKM slabs to the test labs for engine oil seal immersion testing. Afton has sent 3 different J2360 additive formulations at various viscosity grades to SWRI for testing D5662 with their FL seals to compare to prior data using the current FL slabs. Data will be reviewed with the Panel and compared to prior data once the testing is complete.

A motion made by D. Bell and 2nd by R. Warden was unanimously approved with 7 votes to proceed with FNOK's offer to produce FL slabs at their Plymouth, MI facility.

A motion made by D. Bell and 2nd by B. Grinfield was unanimously approved with 7 votes to adjourn the meeting at 10:13 am.

Respectfully submitted,

Donald Bell/Chairman
