

Oil Seal Compatibility Test (OSCT) Surveillance Panel Meeting Minutes

06/08/2009

D. Bell

Meeting Attendance:

D. Bell (Afton)
J. Gropp (Lz)
D. Lind (TMC)
C. Knight (TEI)
J. Keiter (Lz)
B. McGlone (ArvinMeritor)

B. Grinfield (SWRI, not present, but voted prior to the meeting)

The qualification data compiled by the Test Monitoring Center that was generated by Lz and SWRI for Fluoroelastomer batch FL378 in reference oils 161-1 and 160-1 were reviewed by the OSCT Surveillance Panel. The shore hardness, percent elongation, and % volume change for FL378 were well within the acceptance bands in both reference oils and in good agreement between labs. A motion made by J. Gropp and 2nd by B. McGlone passed with 5 approvals, 0 disapprovals, and 1 abstention to approve FL378 effective 6/8/09 for OSCT per ASTM D5662. The elastomer distributor, Test Engineering Institute (TEI), was notified to release FL378 (~200 slabs) for sale to SWRI and Lz as orders are received.

Motion to adjourn was unanimously approved on 6/8/09 at 2:25 pm.
