**MEMORANDUM:** 03-124  
**DATE:** December 18, 2003  
**TO:** Fall 2003 Heavy Duty Diesel Rating Workshop Attendees  
**FROM:** Scott Parke  
**SUBJECT:** Workshop Data

Compilation of the data produced during the October 2003 Heavy Duty Diesel Rating Workshop is now completed. It is available on the TMC's website at the following URL:

[ftp://ftp.astmtmc.cmu.edu/refdata/diesel/rating\\_workshop\\_data/2003\\_fall/2003\\_october\\_all\\_data.pdf](ftp://ftp.astmtmc.cmu.edu/refdata/diesel/rating_workshop_data/2003_fall/2003_october_all_data.pdf)

The first page of this document shows a cross index of which parts were rated by which raters; the pages that follow contain all of the data. Each page shows the data both as rated demerit values and as standardized values (Yi values).

The ASTM Rater Calibration Task Force has defined "Calibrated Raters" as those who have 1) attended an ASTM or CRC industry workshop and 2) rated parts for the test type where calibration is sought and 3) had the data they produced included with the data from the workshop. A list of raters meeting these criteria is available at:

Any questions pertaining to the workshop or the data posted may be directed to me at 412-365-1036.
