MEMORANDUM: 05-081
DATE: November 7, 2005
TO: Fall 2005 Heavy Duty Rating Workshop Attendees
FROM: Scott Parke
SUBJECT: Workshop Data

Compilation of the Fall 2005 Heavy Duty Rating Workshop report is now completed. It is available on the TMC's website at the following URL:

ftp://ftp.astmtmc.cmu.edu/refdata/diesel/rating_workshop_data/2005_fall/HeavyDutyW-S_final_report_October_2005.pdf

This document contains the minutes for the workshop and all of the data produced at the workshop. The first page of the data attached to this document shows a cross index of which parts were rated by which raters; the pages that follow contain all rating data produced for all parts. Each page shows the data both as rated merit values and as standardized values (Yi values).

The ASTM Rater Calibration Task Force has defined "Calibrated Raters" as those who have 1) attended an ASTM or CRC industry workshop and 2) rated parts for the test type where calibration is sought and 3) had their data published. A list of raters meeting these criteria is available at:
